Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 13 July 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Applicant's election of claims 1-28 and cancellation of claims 29-38 in the reply filed on 13 July 2005 is acknowledged.

The new examiner now in charge of this application has determined that the following species exist in claims 1-28, and the following restriction requirement is being made accordingly.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

Grouping A:

A1) Claims are 2, 6, 12, and 13 are directed to direct exposure of a (photosensitive) recording medium to form a watermark.

A2) Claims are 3, 11, and 26 are directed to forming the watermark separately from recording the image on the recording medium (e.g., via donor medium with dye-forming layers).

Grouping B:

B1) Claims 5 and 18 are directed to forming the watermark on the recording medium during the manufacturing step.

B2) Claim 19 is directed to forming the watermark on the recording medium prior to image content being formed on the recording medium.

Art Unit: 2626

B3) Claim 20 is directed to forming the watermark on the recording medium following image content being formed on the recording medium.

B4) Claims 14 and 27 are directed to forming the watermark on the recording medium during image content being formed on the recording medium.

Grouping C:

C1) Claims 7 and 22 are directed to the recording medium being motion picture print film.

C2) Claims 8 and 21 are directed to the recording medium being a motion picture negative.

C3) Claims 9 and 23 are directed to the recording medium being a microfilm.

C4) Claims 10 and 24 are directed to the recording medium being a still imaging medium.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species in each of the groups above (Groups A, B, and C) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

Currently, claims 1, 4, and 17 are generic. Claim 28 is not subject to the species election requirement and will be examined with the generic and elected claims.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 2626

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
